COLLECTIONS

Three payment processing methods  
working together in one collections platform!

Choose which to enable,  
or use all three at the same time!

No restrictions

Optimise your Collections Strategy

## Card Collections

- Setup recurring card to run monthly on your preferred action day.
- Card transactions are 3D Secured, Verified by Visa and Tokenised.
- Use pro-rata payments, auto-freeze payments, renew expiring cards, terminate, refund, charge activation fee, skip first months, and many more features.

## New: Auto EFT payments

- Offer your Customers the option to pay by EFT. Instead of a Debit Order Mandate, Customers register with Rebel Pay, and their payments are securely processed to your Account.
- RebelPay is an online EFT payment. Once the customer has paid, there can be no unpaids or disputes.

## Manage Collections

- Debit Order facilities can be arranged to pay directly into your own collections account for qualifying clients, or settled from our trust account.
- Your key account manager will help you setup and is on standby for you.
- Benefit from automation, set to your own business rules.

## Security

AddPay is registered with the Payments Association of South Africa as a Third Party Payment Service Provider. AddPay Collections is integrated through AddPay's secure Omni-channel API. Online card processing is PCI-DSS level1 certified.

AddPay keeps you connected with offering synchronous and batch transactions. All transactions are secured by Account Verification Services and 3D secure.

## Why choose AddPay Collections?

- ✓ Install all payment methods that work for your Customers
- ✓ Automatically invoice the next Customer Installment
- ✓ Uniquely branded with your business logo
- ✓ Install your choice of Customer Notifications
- ✓ Shared or dedicated merchant and collections account
- ✓ Independently owned
- ✓ Open to customised integrations with Client systems

"I loved the online signup process, so quick and easy, it was clear that I needed AddPay Collections for my own business. And now the benefit of a single account to manage recurring card and debit order collections powerfully takes care of the admin"
